**FRUIT AND NUT TREES
ORNAMENTALS — GRAPE VINES
AND ROSES**

One of the Most Complete Stocks in the
Willamette Valley

READ CAREFULLY

LOCATION—Our main nursery and Floral Gardens are located on the Old Pacific Highway or River Road one and one-half miles north of the city limits where you will find the sign, rose garden, rockery and pool at the entrance to the sales yard.

VISITORS ALWAYS WELCOME

PLANTING SEASON—Evergreen trees and plants with balls of earth may be moved as early as October, while varieties of fruit trees, rose bushes and shade trees after November first, or as soon as dormant, and all as late in the spring as the month of May. Your personal inspection of this stock is invited.

LANDSCAPE PLANTING SERVICE

We are pleased to assist you in your problems of ornamental plantings, if you will come to the nursery. However if your improvements require a personal call at your home or plans to be drawn, then a service charge will be made according to the time required. We will help you in the selection of your family orchard or commercial planting of fruit and nut trees if unfamiliar with the varieties for your localities.

We do not substitute without the consent of the purchaser.

GUARANTEE—We exercise the greatest care in delivering first class, true to name stock. Should any stock prove untrue to name, we wish it understood that we will be responsible for no greater amount than the original purchase price. No free replacements.

Special care should be given to the planting of deciduous bare rooted fruit, nut and shade trees, also deciduous shrubs. The trees should be pruned quite severely when transplanted and not planted over an inch deeper than they grew in the nursery. They should be watered at least once and more times if convenient, to insure the proper amount of growth the first year. With some trees it is advisable to shade the trunks.
